

<b>Análisis Armónico y Aplicaciones</b>		
<b>Martes, 5</b>		
11.30-12.10	<b>A. Fernández</b>	Heisenberg Uniqueness Pairs and Unique Continuation for Helmholtz equation.
12.10-12.35	<b>C. Meroño</b>	Backscattering estimates with a priori regularity.
12.40-13.05	<b>S. Montaner</b>	End-point regularity for solutions to non-divergence form elliptic equations.
13.05-13.30	<b>F. Pizzichillo</b>	La Interacción Relativista $\delta$ -shell por el Operador de Dirac en $R^3$ y la paradoja de Klein.
16.30-17.10	<b>M. Prats</b>	Regularity of planar quasiconformal self-maps.
17.10-17.35	<b>J. Cavero</b>	Perturbación de operadores elípticos en dominios irregulares.
17.35-18.00	<b>P. Chunaev</b>	Singular integral operators whose $L^2$ -boundedness implies rectifiability.
<b>Miércoles, 6</b>		
11.30-12.10	<b>B. Cassano</b>	Gaussian decay for solutions to the electromagnetic Schrödinger equation and Hardy uncertainty principle.
12.10-12.35	<b>J. Castillo</b>	Isometrías entre espacios de series de Dirichlet múltiples.
12.40-13.05	<b>M.J. Beltrán</b>	Mean ergodic composition operators on Banach spaces of holomorphic functions.
13.05-13.30	<b>G. Bello</b>	Análisis espectral para clases de operadores definidos mediante desigualdades de operadores.
16.30-16.55	<b>M. de León</b>	Regularity estimates for fractional operators from two different points of view.
17.00-17.25	<b>E. Labarga</b>	Hardy's inequality on the sphere.
17.30-17.55	<b>A.D. Martínez</b>	El Laplaciano fraccionario espectral en variedades riemannianas.
<b>Jueves, 7</b>		
11.30-12.10	<b>E. Latorre</b>	Transformadas de Hilbert con una Fase Oscilatoria Polinomial.
12.10-12.35	<b>N. Accomazzo</b>	Necessity of BMO on the endpoint estimate for the commutator.
12.40-13.05	<b>I. Rivera</b>	Sparse domination for generalized Hörmander operators.
13.05-13.30	<b>C. Prisuelos</b>	Action of operators on tent spaces.
16.30-16.55	<b>P. Berná</b>	Estimates of Lebesgue-type constants for the greedy algorithm.
17.00-17.25	<b>U. Etayo</b>	Distributing points in spheres: a probabilistic approach.
17.30-17.55
